Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 4, 12 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by US 6,214,430.

The reference discloses an optical recording medium comprising a substrate having a clamping area thereon where the clamping area has a reinforcing member attached thereto so that the clamping area has a thickness greater than the outer periphery of the substrate, including the area where the recording layer is formed. The substrate is formed by injection molding.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 5-8 and 14-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over US 6,214,430.

The reference discloses the recording medium as described in the above rejection. It is recognized that the reference is silent as to the specific recording materials. However, read-only, erasable, rewritable, etc. recording materials are well known in the art. Therefore, it would have

Art Unit: 1774

been obvious to one of ordinary skill in the art to use any of these types of recording materials on the disclosed medium. One would be motivated by the reasoned expectation of obtaining the desired recording mode.

Allowable Subject Matter

Claims 2 and 9-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
